## BLOWER (ÜFÜRME) MAKİNASI

Çim sahalar için kullanıma uygun olarak hazırlanmıştır.

Özellikle geniş golf sahalarında biçilen çimlerin kenarlarda toplanması için elverişli bir üründür.

Traktör şaft miline takılarak kullanılmaktadır.

Yüksek üfürme gücü sayesinde biçilen çimlerin oluşturduğu yığınlar daha kısa sürede toplanabilmektedir.
